DEJEN ANGAW

Junior Front-End Developer | Computer Science Student

Ethiopia | +251 908 562 615 | Email | GitHub | LinkedIn | Portfolio

PROFILE

Computer Science student at Bahir Dar University building responsive, interactive websites with HTML, CSS, and JavaScript. Hands-on project experience in DOM manipulation, API integration, browser storage, and accessible interfaces. Open to front-end internships, junior roles, and freelance web projects.

TECHNICAL SKILLS

Web: HTML5, CSS3, JavaScript (ES6+), Responsive Design, Flexbox, CSS Grid, DOM Manipulation, Media Queries

Tools: Git, GitHub, GitHub Desktop, VS Code, Browser Developer Tools

Other: REST API Integration, Local Storage, Form Validation, Debugging, Accessibility Fundamentals

SELECTED PROJECTS

Buna Café — Responsive Café Website

HTML5 · CSS3 · JavaScript · Local Storage

- Developed a responsive multi-page café website with menu filtering, search, and interactive ordering.
- Built favorites stored in the browser and quantity controls with dynamic order calculations.
- Added keyboard interactions to improve usability.

GitHub repository | Live demo

Weather Application

HTML5 · CSS3 · JavaScript · Weather API

- Integrated an external weather API to display city-based weather information dynamically.
- Handled invalid searches and built a responsive interface.

GitHub repository | Live demo

File Encryption & Decryption Application

HTML5 · CSS3 · JavaScript

- Built an interactive interface for file encryption and decryption workflows.
- Implemented password input, progress indicators, and downloadable output.
